1 Flyer: Meet Your Custom Robot Farm Hand!

Helping Farmers, Gardeners, and Livestock Owners Thrive, One Task at a Time Need a reliable helper for your farm, garden, or barn?

Whether you're managing a greenhouse, caring for crops, or ensuring livestock stay healthy, the **Robot Farm Hand** is here to take care of the details, keeping your operation in the optimal range and giving you more time for what matters most.

2 Imagine This...

- **Have you ever faced crop losses from frost damage or heat stress in extreme weather?**
- **Do you remember the struggle to control humidity in your greenhouse, only to see diseases or mold creep in?**
- **Are you juggling too many systems—irrigation, ventilation, and monitoring—making it hard to keep everything running smoothly?**

The **Robot Farm Hand** is your solution. It protects your crops and animals by **monitoring and optimizing conditions to avoid extremes in temperature, humidity, and more.** With integrated systems and automated alerts, you can finally relax,

knowing your farm or greenhouse is in good hands—even when you're away.

3 What We're Offering: Tailored Automation for Your Greenhouse

We understand that every greenhouse is unique, so we're offering three customizable options to fit different needs and budgets. Whether you need basic controls or full remote access, we've got you covered:

1. Basic Control System

- **What It Does:** Simple automation for one or two devices like a fan or light to maintain temperature or lighting.
- **Ideal For:** Small greenhouses needing affordable automation.
- **Price:** \$75 - \$100 CAD, with optional add-ons for more controls.

2. Home Monitoring System

- **What It Does:** Monitor temperature, humidity, and light from your home computer or tablet. Add controls for fans, heaters, and lights to adjust settings remotely.
- **Ideal For:** Plant enthusiasts who want in-home monitoring for peace of mind.
- **Price:** \$200 - \$300 CAD, with add-on controls at \$20 each.

3. Full Remote System

- **What It Does:** Full remote access to your greenhouse via the internet, letting you control fans, heaters, lights, dehumidifiers, and even play music for your plants from anywhere.
- **Ideal For:** Busy growers who want complete control, anytime and anywhere.
- **Price:** \$150 - \$200 CAD plus \$10 - \$20/month for online access.

4 Customization Made Simple: Build What You Need

Each system is fully customizable. For example:

- Add a heater control for winter warmth.
- Include a dehumidifier for tropical plants.
- Play growth-enhancing music designed specifically for your plants or animals.

Add-ons are affordably priced, so you can build your system as your needs grow.

More Than Just a Robot The **Robot Farm Hand** isn't just about technology—it's about giving you **peace of mind** in knowing your plants and animals are thriving. It's about finally having the tools to prevent disasters before they happen, all while saving you time and energy for the things you enjoy most.

By partnering with us, you'll benefit from the **latest innovation and research**, focused on:

- **Preventing extreme weather damage.**
- **Maximizing productivity with optimal conditions.**
- **Building sustainable, efficient systems for the future.**

Why Choose Our System?

1. **Your Data, Your Rules:** Open-source and hosted locally in Owen Sound, your data stays private and secure.
2. **Custom-Tailored for You:** Designed to meet the unique needs of your farm, garden, or barn.
3. **Integrated and Manageable:** Control all your systems—ventilation, irrigation, lighting—from one easy tool.
4. **Built to Protect and Optimize:** Maintain optimal conditions and avoid frost, heat, or humidity extremes.

5 How It Works

Your **Robot Farm Hand** uses advanced sensors and automation to:

- Monitor temperature, humidity, and other environmental factors.
- Automate responses like turning on fans, adjusting irrigation, or controlling lights.
- Send alerts to your phone or computer for frost warnings, heat stress, or equipment failures.
- **Play music scientifically designed to enhance plant growth and calm animals.**

6 Ready to Rest Easy?

Pre-Order Today Secure your **custom system** with a deposit and start improving your farm, garden, or barn today!
